3. Overview of Services and Features Available on the Platform

- A. **Digital Asset Trading.** The Platform allows Users to deposit supported stablecoins into their Digital Wallet and place and make trade requests for various types of transactions (including without limitation, swaps, spot trading transactions, and/or other transactions to be executed based on the occurrence or fulfillment of certain thresholds or parameters (such as where the value of a Digital Asset reaches a certain price) ("**Transaction Requests**"). All Transaction Requests are initiated and managed by the User exclusively through the Platform's interface. To facilitate the execution and settlement of the Transaction Requests, the Platform routes trade requests through one or more relevant Dapps provided by Third Party Providers. All Transaction Requests will be conducted, processed and fulfilled (where applicable) by relevant Dapps. The Company and the Platform do not have control over such Dapps provided by Third Party Providers, and the Company and the Platform does not verify and cannot guarantee whether any Transaction Requests can be fulfilled by such Dapps provided by Third Party Providers. The Platform is not the exclusive or only means of accessing such third party Dapps. All transactions executed pursuant to any Transaction Request are final and irreversible once confirmed on the blockchain or the relevant Dapps provided by Third Party Providers, and we will not be able to cancel, stop, delay or reverse any such transaction. You acknowledge that we have no obligation to, nor will we reverse or refund any transaction even if made erroneously. It is your sole responsibility to verify the accuracy of your Transaction Requests before you submit them. Before submitting any Transaction Requests, please ensure that you fully understand the associated risks, including without limitation:
- i. In order for you to place a Transaction Request, the corresponding amount of your Digital Assets needed to fulfil that Transaction Request (for example to purchase a relevant Digital Asset, or to sell the amount of Digital Asset that corresponds to the Transaction Request) will need to be reserved and locked for the purposes of fulfilling that Transaction Request if the

relevant thresholds or parameters are fulfilled. You acknowledge that any such reservation or locking of Digital Assets is effected solely through the relevant smart contracts, wallet permissions, approvals, or other transaction logic (blockchain or otherwise) authorised by you, and that the Company does not at any time take custody, possession, or control of your private keys or Digital Assets. Such corresponding amount of the relevant Digital Assets shall remain reserved and locked until the relevant Transaction Request is fulfilled (in which case the corresponding amount of Digital Assets shall be used to fulfil the Transaction Request), or until the relevant Transaction Request is cancelled/withdrawn or expires (in which case the corresponding amount of the relevant Digital Assets shall be unlocked and usable again). You further acknowledge and agree that for the period that a Transaction Request is placed and active, the corresponding amount of your relevant Digital Assets shall be unusable by you regardless of whether it is reflected on the balance of your Digital Wallet.

- ii. To facilitate and complete the fulfilment of Transaction Requests, you may need to provide the Company and the Platform with the permission and authority to access and use your Digital Wallet for the purposes of executing the transaction to fulfil the Transaction Requests on your behalf at any point in time, without further action or interaction from you. In this regard, when you place a Transaction Request, you hereby acknowledge and agree that you are permitting the Platform and the Company, and granting the Platform and the Company authority, to take certain actions on your Digital Wallet on behalf of you, including without limitation, signing and executing the relevant transaction to fulfil the Transaction Request.
- iii. To improve the efficiency of Transaction Requests, the Company and/or the Platform may automatically bridge your Digital Assets across different blockchains and cryptocurrencies to be stored as a reserve. For example, after a fund deposit and prior to a Transaction Request, your funds may be stored as USDC on the Solana blockchain.
- iv. While the Company will use and implement commercially reasonable efforts and measures to maintain the security of the Platform, Users acknowledge and agree that there are inherent risks and flaws in the usage of technology and network communications and the transmission of data through the use of the internet. Consequently, there can be no guarantees that the Platform, the Transaction Requests, and any access, use, connection or interaction between the Platform and the User's Digital Wallet will be secure and the same may be susceptible to security breaches, delays or failures. You acknowledge and agree that the Company and the Platform shall not be liable or responsible to you or any third party for any losses, damage, costs, expenses, liabilities or any other harm arriving from (a) your access and use of the Platform to place Transaction Requests; (b) any transactions or actions taken by the Company and the Platform (whether automated or not) necessary for the fulfilment of the Transaction Requests; (c) any security breach, unauthorized access, security compromise of your Digital Wallet as a result of any access, use, connection or interaction between the Company, the Platform and the User's Digital Wallet in the course of fulfilling any Transaction Requests.
- v. The Company makes no representations as to network performance, liquidity, or the availability of counterparties or Dapps provided by Third Party Providers for execution of your Transaction Requests. You are solely responsible for reviewing all transaction parameters, before submitting any Transaction Requests. Once submitted, Transaction Requests cannot be cancelled, modified, withdrawn or refunded by the Company. You acknowledge that even if a transaction is executed under incorrect inputs or due to user error, you shall bear full responsibility, and the Company has no obligation to reverse or compensate for such activity. Before entering into any transaction, please ensure that you fully understand the associated risks.
- vi. In entering into and conducting transactions on the Platform, you represent and warrant that:
 - 1. you will not utilise or deposit funds which originate from criminal or other unauthorised activity;
 - 2. you will not utilise or deposit funds using payment methods that do not belong to you;
 - 3. you will not withdraw or try to withdraw any funds that do not belong to you; and
 - 4. you fully understand the risks associated with conducting transactions in trading in a decentralised, blockchain-based, smart contract based or peer to peer system and your use of the Platform to conduct such transactions is solely at your own risk, and the Company will not be, and is not, liable for any losses suffered by you as a result of your use of the Platform.

- B. Additional Risk Disclosures.** Before entering into any transaction on the Platform (including without limitation, making any Transaction Requests), please ensure that you fully understand the associated risks, including without limitation the following:
- i. Market risks. Digital Assets supported by the Platform or the relevant Dapp(s) are subject to significant volatility for which the Company has no control over. Price fluctuations may occur due to network dynamics, validator behavior, user activity, liquidity conditions or other market conditions. We will not be liable to you for any losses incurred from any transactions executed on the Platform.
 - ii. Third Party risks. The Company and the Platform do not own, control, operate or maintain any third party Dapps and have no ability to influence, modify, or intervene in the execution or settlement of such Transaction Requests once such request has been routed to such third party Dapps. Such third party Dapps are not a part of the Platform and the Platform is not the exclusive or only means of accessing such third party Dapps. The Company is not a broker, dealer, exchange, investment adviser, custodian or financial service provider of any kind. The Company solely provides technical interface services that routes the Transaction Request of Users to the third party Dapps (including smart contracts) that function deterministically and are not operated or controlled by the Company or the Platform. We will not be liable for any loss arising from the acts, omissions, failures, insolvency, misconduct, unavailability, or malfunction of any Third Party Provider.
 - iii. Liquidity risks. Due to insufficient or limited liquidity at times, you may face the risk of price slippage and/or potential delays in any execution of your transactions, or you may find it difficult or impossible for you to execute a transaction (for example, sell or exit a position when you wish to do so). This may occur at any time, including at times of rapid price movements and non-trading hours. We will not be liable to you for any losses incurred arising from such liquidity risks (for example, losses suffered from any such price differences, delays in execution or inability to execute a transaction).
 - iv. Routing risks. Transactions conducted through the Platform may involve one or more routing steps determined by the applicable transaction flow, including without limitation swap routes, bridge routes, deposit routes, withdrawal routes, intermediate transfers, conversions and interactions with one or more Third Party Providers, smart contracts, blockchain networks, liquidity sources, market makers, bridges or wallet permissions. Such routing may expose you to additional risks, including route failure, bridge failure, failed or delayed settlement, misdirected transfers, smart contract failure, counterparty failure, stale or inaccurate quotes, exchange-rate differences, slippage, price impact, increased fees, network congestion, insufficient liquidity, partial execution or the inability to complete or unwind a transaction. The availability, timing, cost and outcome of any route may change at any time and without notice, and the Company does not guarantee the availability, suitability, accuracy, execution quality or successful completion of any swap route, bridge route, deposit route, withdrawal route or other transaction path.
 - v. Informational risks. Notwithstanding the Company's efforts, information available as part of the Services may not be accurate, timely, current or complete, and may include technical inaccuracies, typographical errors, omissions, delays or stale data. Information is subject to change or update from time to time without notice, including information regarding the Company's Terms or policies. Accordingly, you should verify all information before relying on it, and all decisions based on information contained on the Platform or otherwise as part of the Services are your sole responsibility. No representation is made as to the accuracy, completeness, or appropriateness for any particular purpose of any information (including without limitation pricing, availability, security, fees, ownership rights, accessibility, and redeemability) distributed via the Platform or otherwise when using the Services. Prices and pricing information may be higher or lower than prices available on platforms providing similar services.
 - vi. Ownership Rights and User Responsibility. You are solely responsible for determining whether you are legally permitted to access, acquire, hold, transfer or dispose of any tokenised stocks or other tokenised assets made available via the Platform under any laws and regulations that are applicable to you, and for reviewing and understanding the rights, restrictions and risks attached to them. The Company shall have no responsibility or liability if you access, acquire, hold, transfer or deal in any such instrument in breach of any applicable law or regulations.
 - vii. Trades are Final and Irreversible. All transactions undertaken through the Platform and the Services are irreversible and final, and there are no refunds. You accept all consequences of accessing and using the Platform and the Services, including the risk that you may lose access

- to your Digital Assets indefinitely. All transaction decisions are made solely by you. Notwithstanding anything to the contrary in these Terms, the Company shall have no responsibility whatsoever for, and shall in no circumstances be liable to you in connection with, your use of the Platform and the Services for performing transactions relating to Digital Assets.
- viii. Other Platform, Technical or Financial Risks. Use of the Platform and Services involves significant technical and financial risks, including the risk of loss. Digital Assets are inherently highly risky and volatile. The risk of loss in trading Digital Assets can be substantial. There are other risks relating to such transactions (including without limitation, high slippage on your transactions, funding of payments, general risks relating to such Digital Asset transactions). You understand and accept that transactions involving Digital Assets may result in the loss of a substantial portion or all of your Digital Assets involved in the transaction. The Company does not provide any legal, tax, financial, investment or other professional advice to you with respect to your use of the Platform or any transactions involving Digital Assets. You should, therefore, carefully consider whether such transactions are or would be suitable for you in light of your circumstances and financial resources, and should seek professional advice where appropriate. By accessing and using the Platform and the Services, you represent and warrant that you have been, are, and will be solely responsible for making your independent assessment of the risks, merits and suitability of any transaction, and that you understand and accept the risks associated with Digital Assets. You represent that you have sufficient knowledge, market sophistication, professional advice and experience to make your evaluation of the merits and risks of any transaction conducted in connection with the Platform and the Services or any Digital Asset.
- C. **Portfolio Dashboard.** The Platform provides a dashboard and interface (the “**Portfolio Dashboard**”) for Users to conveniently view their portfolio, holdings, performance metrics, and historical data derived from blockchain activity and user wallet connections. The Portfolio Dashboard is provided for your convenience only, and should not be relied upon solely as a singular source of truth. Information displayed on the Portfolio Dashboard may be incomplete, inaccurate, or affected by delays, on-chain anomalies, errors, technical issues, or user misconfiguration. We disclaim responsibility for any discrepancies between actual on-chain data and the dashboard output, and the Company will not be liable to you for investment or operational decisions based on the information made available on the Portfolio Dashboard.
- D. **Digital Asset Information.** Information relating to Digital Assets (including but not limited to supply, volume, pricing, trends and/or value of such Digital Assets) made available on or through the Platform are obtained and/or sourced from external sources managed by Third Party Providers and have not been independently verified by the Company. The Platform aggregates and publishes publicly available information relating to the blockchain and Digital Assets in a manner and format which we feel is easy to read and understand. Such information is also independently available from other sources—for example, a person may directly review transaction history, wallet activity or wallet / account balances and on a blockchain explorer. In providing information about Digital Assets, the Platform associates or presumes the association of a relevant Digital Asset’s name, ticker, symbol or logo with a specific smart contract deployed to one or more blockchain systems. In making such associations, the Platform relies upon third-party resources which may not be accurate or may not conform to a given User’s expectations. Multiple smart contracts can utilize the same Digital Asset name, ticker, logo or symbol as one another, meaning that the name, ticker, logo or symbol of a Digital Asset does not guarantee that it is the token desired by the User or generally associated with such name, ticker, logo or symbol. Users must not rely on the name, symbol, ticker or branding of a Digital Asset on the Platform, but instead must perform your own due diligence and research, including without limitation, examining the specific smart contract associated with the name, symbol, ticker or branding and confirm that the relevant Digital Asset accords with User’s expectations. Such information shall not be considered or construed as financial advice, investment advice, tax advice, legal advice, or any other sort of advice. No representation or warranty, express or implied, is made as to the fairness, accuracy, timeliness, quality, origin, ownership or completeness of the information made available on this Platform, and is provided only for general informative purposes, and no reliance should be placed on it. The Company shall not be responsible or liable to you for any use of, or reliance placed on, the information relating to Digital Assets. We shall not be liable for any errors, misrepresentations, or omissions in, of, and about, the information, nor for the availability of the information.

- E. **Advertising.** The Platform may incorporate third-party technology that enables advertising on the Platform. As part of this process, the Company and/or its authorized third party advertisers may collect standard information that is sent when your personal computer or device connects to the Internet including your Internet protocol (IP) address.
- F. **Conduct.** You shall ensure that your actions, conduct and behaviour in your use of the Platform comply with and abide by all the rules and guidelines imposed by the Company and/or its Third Party Providers. The Company may suspend or block your access to the Platform and/or any Services, whether for a period of time or indefinitely, in the event that you violate or fail to comply with any of such rules and guidelines. For the avoidance of doubt, although we may suspend or block your access or use of the Platform and Services, we will not block or prevent you from accessing your Digital Wallet or the Digital Assets stored therein, unless legally required to do so by any applicable laws or regulatory, court or governmental order.
- G. **Identity Disclosure.** You are responsible for the protection of your real and actual identity within the Platform, and any disclosure of your real and actual identity to any other user within the Platform is at your own risk. For example, subject to availability, you are able to create and choose a username on Progress Tracking Feature (defined below) of the Platform (a “**Username**”), and you should take care to only choose a Username that you are comfortable with (to the extent that such Username results in the disclosure of your identity). The Company and/or its Third Party Providers will not be liable or responsible for any disclosure of your real and actual identity by you within the Platform, or any loss, damage or harm arising as a result of such disclosure.
- H. **User Created or Uploaded Content.** The Platform may enable you to upload and display content (including without limitation, Username, images, text, messages, data, information, videos, voice and sound recordings) on the Platform, (collectively, the “**User Content**”).
- i. You retain ownership over your User Content but you hereby grant the Company a perpetual, irrevocable, worldwide, fully paid up, non-exclusive, sub-licensable, right and license to use for any purpose whatsoever (whether commercial or otherwise) the User Content and all elements thereof, in any and all media, formats and forms, known now or hereafter devised. Any such submission by you shall not create any contractual relationship between you and the Company. Except to the extent that any such waiver is prohibited by law, you hereby waive the benefit of any provision of law known as "moral rights" or "droit moral" or any similar law in any country of the world. You represent and warrant that the User Content does not infringe upon the copyright, trademark, patent, trade secret or other intellectual property rights or proprietary rights of any third party.
 - ii. You further represent and warrant that you will not use or contribute User Content that is unlawful, tortious, defamatory, obscene, invasive of the privacy of another person, threatening, harassing, abusive, hateful, racist or otherwise objectionable or inappropriate. The Company may remove or delete any User Content and any related content or elements from the Platform at its sole discretion (including without limitation, where the Company believes that any User Content is in violation of these Terms of Use).

The Company and the Platform are not able to independently verify the veracity or authenticity of such action or transaction, and shall not be responsible for preventing such action or transaction from occurring.
 - iii. In certain circumstances, such as if you lose or forget your password for your Digital Wallet, you will need to use a private key, seed or recovery phrase to access any Digital Assets stored in your Digital Wallet (the "**Seed Phrase**"). You are solely responsible for the retention and security of your Seed Phrase. Your Seed Phrase is the only way to restore access to the Digital Assets stored in your Digital Wallet if you lose access to your Digital Wallet. Anyone who knows your Seed Phrase can access, transfer or otherwise deal with or dispose of your Digital Assets. If you lose your Seed Phrase, you may permanently lose access to your Digital Assets. You acknowledge that certain methods of securing your Seed Phrase, such as storing it as a digital file anywhere, including on your personal device or on a cloud storage provider, increase the risk that your account or Seed Phrase will be compromised. You further acknowledge that you will not share with us nor any other third party any password or Seed Phrase relating to your Digital Wallet, and that we will not be held responsible if you do share any such password or phrase, whether knowingly or unknowingly. For the avoidance of doubt, we take no responsibility whatsoever for any theft or compromise of a Seed Phrase involving intrusion through any means into your personal device or a cloud provider's data repository.
 - iv. You acknowledge and agree that we do not store and are not responsible in any way for the security of your Seed Phrase and you agree to hold us, our affiliates, representatives, agents and personnel harmless and that no such party shall be liable in any way in the event you lose your Seed Phrase and cannot access, transfer, use or otherwise deal with or dispose of your Digital Assets. You bear sole responsibility for any loss of your Digital Assets due to failure to retain and/or secure your Seed Phrase.
 - v. You hereby irrevocably waive, release and discharge the Company, its affiliates, and their respective shareholders, members, directors, officers, employees, agents and representatives, from any and all claims, demands, liabilities, damages, losses, costs or expenses arising out of or relating to your use of your Digital Wallet, any loss, theft, compromise or inaccessibility of Digital Assets, any failed, delayed or misdirected transaction, and any bug, error, interruption, unavailability or failure of the Platform.

The eligibility criteria, mechanics, duration, rewards, benefits, restrictions, and other terms applicable to any such offering shall be determined by the Company in its sole discretion and may be modified, restricted, suspended, withheld, or discontinued at any time without prior notice or liability. Unless expressly stated otherwise by the Company in writing, any such rewards, benefits, or incentives have no cash value, are not property, are not transferable, and do not create any vested right or entitlement.

- K. **Progress Tracking Feature and Points.** From time to time, the Company may make available features that track your progress or reflect your activity, participation, profile or engagement on our Platform and within our ecosystem ("**Progress Tracking Feature**"). Such features may include the issuance of points, rewards, benefits and incentives (collectively, "**Points**") and the allocation and assignment of levels, tiers or statuses to a User Account (collectively, "**Tiers**") based on a User's activity and participation within the Platform, and/or the conducting or issuance of various challenges, quests, mini-games or other activities that you may be able to participate in. We may also issue Points, gifts or other benefits and incentives or allocate or assign Tiers at our sole discretion (whether randomly or otherwise). The amount, type and value of any such Points, Tiers or other rewards or benefits offered, if any, may be set, modified, withheld or cancelled by the Company at any time without prior notice or liability. The Progress Tracking Feature is provided for your information and entertainment only, and shall not be deemed as having any intrinsic value or entitling you to any funds, compensation, or other benefit (financial or otherwise). Any Points issued or awarded or Tiers allocated or assigned may be retracted, cancelled, invalidated or amended based on a criteria determined by us, or at our sole discretion. The Progress Tracking Feature may be affected by technical issues, maintenance, upgrades, resets, recalculations, policy changes, data discrepancies, or other events, and may be reset, delayed, unsaved, lost, or changed at any time. The Company shall not be liable or responsible to you or any third party if any part of your Progress Tracking Feature (including all or part of your Points or Tiers or other rewards or benefits under your User Account) is reset, unsaved or lost.
- L. **Referral Reward Program.** From time to time, we may implement a referral reward program ("**Referral Program**"). This may include the issuance of unique referral links, codes or identifiers to you, which may be used by other users (the "**Referred Users**") to register on the Platform or access specific features, and for which such registration shall be linked or accounted to you. Subject to the Company's policies and eligibility criteria in force at the relevant time, you may be assigned or allocated Tiers or be issued or awarded Points, rewards or other benefits upon a valid referral, and such referral may be considered valid only if it satisfies the following conditions, and/or such other conditions as may be imposed by the Company from time to time, whether applicable to a particular referral campaign or generally:

 - iv. the referral does not involve any fraud, abuse, self-referral, "sybil attacks", "farming", unfair practices, unfair or undue manipulation or exploitation of any mechanics of the Referral Programme or violation of our policies.

The amount, type and value of any Points, rewards or benefits offered, and the benefits that an assigned or allocated Tier provides, under the Referral Programme may be set, modified, withheld or cancelled by the Company at any time without prior notice or liability. From time to time, we may limit the number or amount of Points, rewards or benefits a User may receive, impose expiration dates, or require additional actions to unlock Points, Tiers or other rewards or benefits. Additionally, **the Referral Programme may be limited, suspended, or made unavailable in certain jurisdictions due to applicable laws, regulations, or compliance requirements.** You acknowledge and agree that we may disclose your personal details to your Referred Users as the referrer, and personal details of your referrer to you as a Referred User. Participation is subject to geographic eligibility, and the Company reserves the right to restrict access at its sole discretion. The Company shall not be liable or responsible to you or any third party, including the Referred User, in the event that your referral rewards or progress tracking are delayed, inaccurate, withheld or suspended for any reason, including technical issues, policy updates or user misconduct. You acknowledge that the Referral Programme does not in any way constitute financial or investment solicitation, or an offering to participate in securities or regulated products. The Referral Programme and any associated Points, Tiers or other rewards or benefits are not intended to, and

shall not be construed as, an inducement, solicitation, or enticement to engage in any form of cryptocurrency purchase, trading, or investment activity. We may reject or cancel any Referral Programme, or your participation thereto, at our sole and absolute discretion without any prior notice or explanation, or any further liability, to you.

Where Trading Incentives are provided, the Platform may automatically deduct a fee from such Trading Incentives to cover any expenses or costs in transferring the Trading Incentives. The Trading Incentives are provided solely as an additional benefit to Users, and nothing in these Terms shall be deemed as any guarantee or promise that a User may receive any Trading Incentives. The Company may discontinue, amend, vary, suspend or terminate any Trading Incentives at any time without any notice to the Users.
- N. **Service Availability.** The Services are provided on an "as-is" and "as-available" basis without warranties of any kind, whether express or implied, including but not limited to warranties of merchantability and fitness for a particular purpose, operation and any particular application or use. We reserve the right to disable or modify access to the Services at any time in the event of a breach of the Terms, including, if we reasonably believe any of your representations and warranties may be untrue, misleading or inaccurate, and the Company will not be liable to you for any losses or damages you may suffer as a result of or in connection with the Services being inaccessible to you at any time or for any reason.

By using the Platform and any of the Services you acknowledge and agree to undertake these risks.
- iii. You acknowledge and agree that such Digital Assets, blockchain technologies and associated assets are highly volatile due to many factors including but not limited to popularity, adoption, speculation, regulation, technology and security risks. Like all software, the Platform and the Services may be subject to exploits. The Company is not and will not be responsible for exploits of any kind. While the Company has taken a number of precautions to maintain the security of the Platform and the Services respectively, this is a nascent technology and it is not possible to guarantee that the software codes or any smart contracts are completely free from vulnerabilities, bugs or errors. In addition, in the event of a fork, transactions on the network may be disrupted, including transactions involving the Platform and the Services.
 - x. Other counterparty risks. In such other exceptional circumstances, your Digital Asset holdings and your ability to transact or deal with your Digital Asset holdings, may be adversely affected which may result in a range of outcomes including, without limitation, transactions not completing as expected, trading costs being irrecoverable, loss of profits, inability to acquire or dispose of assets at the desired time or price.
 - xi. The Digital Asset industry is subject to systemic and systematic risk. Systemic and systematic risks are both threats to the Digital Asset markets and economy, but the cause of these risks and the approaches for managing them are different. Systemic risk is the risk that a company or industry-level risk could trigger a major collapse. Systematic risk is the risk inherent to the entire market, which can be economic, sociopolitical, technological, or natural in origin. These risks can affect the prices of Digital Assets.

- ii. In the event of a termination of these Terms, you will continue to be able to access and use your Digital Wallet, but you may need to do so through means outside of the Platform (for example, a browser extension). In addition, you will not be able to use the Platform. The Dispute Resolution provisions of these Terms will survive termination and apply to all Disputes that arose or could have been initiated prior to termination.

15. Dispute Resolution. PLEASE READ THIS SECTION CAREFULLY. IT MAY SIGNIFICANTLY AFFECT YOUR RIGHTS, INCLUDING YOUR RIGHT TO FILE A LAWSUIT IN COURT OR TO PURSUE CLAIMS IN A CLASS OR REPRESENTATIVE CAPACITY

A. APPLICABILITY OF THIS DISPUTE RESOLUTION POLICY. This binding individual arbitration section will not apply to the extent prohibited by the laws of your country of residence. To the fullest extent allowed by applicable law, you and the Company agree to submit all Disputes between us to individual, binding arbitration. A "**Dispute**" means any dispute, claim, or controversy (except those specifically exempted below) between you and the Company that relates to any aspect of our relationship, including, without limitation, your use or attempted use of the Platform (including any Service or Content made available thereon), and all marketing related to them, any licensed content, and all matters arising under these Terms, the Company's Privacy Policy, or any other agreement between you and the Company, including the validity and enforceability of this agreement to arbitrate. A Dispute shall be subject to binding, individual arbitration regardless of whether it is based in contract, statute, regulation, ordinance, tort (including fraud, misrepresentation, fraudulent inducement, or negligence), or any other legal or equitable theory. This includes claims that accrued before you entered into these Terms. You understand that there is no judge or jury in arbitration and that court review of an arbitration award is limited.

- B. INFORMAL NEGOTIATION PERIOD.** In an effort to accelerate resolution and reduce the cost of any Dispute related to, or arising out of, these Terms, you and the Company agree to first attempt to negotiate any Dispute (except as set out in Section 15.F. below) informally for at least thirty (30) days before either party initiates any arbitration or court proceeding. **Notice must be provided within one (1) year of the Dispute having arisen, but in no event after the date on which the initiation of legal proceedings would have been barred under the applicable statute of limitations. The failure to provide timely notice shall bar all claims.**
- i. Negotiations will begin upon receipt of written notice by the party raising the Dispute. The Company will send its notice to your e-mail address or otherwise contact you via the registered telephone number that you have provided to us.
 - ii. You will send your notice to the Company at hello@treasures.io.
- C. BINDING ARBITRATION.** If a Dispute cannot be resolved through negotiations, either you or the Company may elect to have the Dispute finally and exclusively resolved by binding arbitration. The provision by you of a notice to the Company, containing all of the information referenced above, and your good-faith participation in the Informal Negotiation Period, are prerequisites to commencing arbitration.
- i. Any dispute as to any matter arising under, out of or in connection with this Agreement (including but not limited to any question regarding its existence, validity or termination) shall be referred to and finally and exclusively determined by arbitration in Panama at the Arbitration and Settlement Centre of Panama (“**CECAP**”) in accordance with the Arbitration Rules of the CECAP for the time being in force, which rules are deemed to be incorporated by reference in this Clause. The Tribunal shall consist of one arbitrator to be appointed by the Chairman (or equivalent position) of the CECAP. The language of the arbitration shall be English. The award by the arbitrator shall be valid, final and binding on each of the Parties. The Parties shall have the right to seek interim injunctive relief from a court of competent jurisdiction, both before and after the arbitrator has been appointed, at any time up until the arbitrator has made its final award. The Parties undertake to carry out any award without delay and waive their right to any form of recourse insofar as such waiver can validly be made. Judgment upon the award may be entered by any court having jurisdiction thereof or having jurisdiction over the relevant party or its assets. You and the Company shall be responsible for their respective attorneys’ fees and expenses.
 - ii. THE ARBITRATION PROCEEDINGS DESCRIBED HEREIN WILL BE CONDUCTED ON AN INDIVIDUAL BASIS ONLY. The arbitrator may not consolidate disputes against the Company by other individuals or entities unless the Company expressly consents to such consolidation. These Terms provide no right or authority for any Dispute to be arbitrated, adjudicated, or resolved through proceedings on a class or representative basis or using class action procedures. The arbitrator may award any relief that is permitted by applicable law with respect to your individual claim, but to the maximum extent permitted by applicable law, may not award relief against the Company respecting any person other than you.
- D. CLASS AND COLLECTIVE ACTION WAIVER.** To the fullest extent allowed by applicable law, you and the Company agree that neither you nor the Company may participate as a class representative, private attorney general, or as a member of any class of claimants for any Dispute subject to arbitration or for any non-arbitrable claim pursued in court. The arbitrator and any court shall construe the agreement to arbitrate and the agreement to waive class or collective actions in any manner that will render them enforceable and give them effect. If, for any reason, this class or collective action waiver is deemed unenforceable by a court or arbitrator, you agree that the parties’ contract to arbitrate is then entirely void. If any portion of these Terms other than the class action waiver is found illegal or unenforceable, such portion shall be severed and the remainder of these Terms shall be given full force and effect. Any Dispute subject to any such portion of these Terms shall be decided by the arbitrator.
- E. GOVERNING LAW.** Unless these Terms include express language to the contrary, all Disputes shall be governed by and construed under the laws of Panama without regard to choice of law principles. The application of the United Nations Convention on Contracts for the International Sale of Goods is expressly excluded. This paragraph will be interpreted as broadly as applicable law permits.

F. **EXCEPTIONS TO NEGOTIATIONS AND ARBITRATION.** You and the Company agree that the following Disputes are not subject to the above provisions concerning negotiations and binding arbitration:

- i. any Dispute seeking to enforce or protect, or concerning the validity of, any of the Company's intellectual property rights;
- ii. any Dispute related to, or arising from, claims that the other party has committed piracy;
- iii. individual actions duly filed in a small-claims court of competent jurisdiction on a non-representative basis; any claim within the jurisdictional limits of the small claims courts;
- iv. enforcement actions pursued through a governmental agency if permitted by applicable law;
- v. the Company's right to seek injunctive relief to preserve the status quo pending or during an arbitration.

In the event of any conflict or inconsistency between the main body of the Platform Terms and this Appendix, this Appendix will prevail only in respect of your access to and use of the API Services, and only to the extent of such conflict or inconsistency. The main body of the Platform Terms will continue to apply in all other respects.
- 2.2. This Appendix does not apply to users who access the Platform solely through the Platform’s website or user interface. Such users are governed solely by the Platform Terms.

3. Access and Restrictions

- 3.1. Licence. Subject to this Appendix and the Platform Terms, the Company grants you a worldwide, revocable, non-exclusive, non-transferable and non-sublicensable licence to use the API Services solely (a) for so long as the Company permits you to access and use the API Services, (b) for your own personal or commercial purposes (but provided you comply with the restrictions and other terms applicable to the usage of the Platform API(s)), and (c) in accordance with applicable Documentation. Upon the termination of the applicable licences as provided in this Appendix, you will cease accessing and using the API Services and return, uninstall or delete all copies of the applicable API Services (including Platform API(s)), with the exception of any Open Source Software, of which the terms of the applicable Open Source license shall apply to such Open Source Software.
- 3.2. Usage Limitations and Restrictions. The Company may, at its sole discretion and without liability, suspend, throttle, rate-limit or revoke your access to the Platform API(s) or any API Services, in whole or in part, immediately upon notice (or without notice where the Company reasonably determines that continued access poses a security risk, legal risk, or risk of harm to the Platform or other users) if you violate, or assist others in violating, the restrictions and limitations set forth below, or if the Company reasonably believes that your use of the API Services may compromise the integrity, security or availability of the Platform. In addition to the restrictions and limitations set out in the Platform Terms (which apply equally to the API Services), and with respect to the API Services made available to you under this Appendix — with the exception of any Open Source Software, to which the terms of the applicable Open Source license shall apply — you must not, and must not allow any other person to:
- (i) violate the Platform Terms or this Appendix;
 - (ii) exploit any vulnerability of the API Services, inject any unauthorized or malicious scripts, codes, commands, queries, or requests, or introduce any unauthorized code through the API Services. In the event that you are aware of any vulnerabilities in the API Services or any part thereof, you shall immediately notify the Company, and shall ensure that you do not notify any third party without the prior written consent of the Company;
 - (iii) use any unauthorized process or software that intercepts, collects, crawls, scrapes, reads, or “mines” information or data generated or stored by the API Services (or any part thereof, including any third party components) or the underlying Platform, or use the API Services to develop any other software or tool that does the same;
 - (iv) decompile, reverse engineer, or reverse assemble any portion of Platform, API Services or Third-Party Software, or attempt to discover any source code or underlying ideas or algorithms of Platform, API Services or Third-Party Software;
 - (v) sell, assign, sublicense, rent, lease, distribute, commercially exploit or otherwise transfer access to the API Services without the Company’s prior written approval;
 - (vi) remove or alter any trademark, logo, copyright, or other proprietary notices associated with API Services (including, without limitation, any trademark, logo, copyright, or other proprietary notices associated with the Company or its third-party licensors);
 - (vii) circumvent or attempt to circumvent any aspect of the API Services, which is designed to manage or restrict unauthorized access or use of API Services;
 - (viii) access or use the API Services for any illegal or illicit purposes, or in violation of any applicable law;
 - (ix) access or use the API Services to build, design, develop, or participate in, whether directly or indirectly, any competing product, service, or business activity; or
 - (x) cause or permit any other party to do any of the foregoing.

4. Delivery and Services

- 4.1. Delivery. Subject to this Appendix and the Platform Terms, the Company will make the API Services available for access and use to you through the Company’s website/Documentation and with the provision of the applicable API keys or such other applicable access credentials as may be issued or made available by the Company (collectively, the “**API Keys**”). You acknowledge that the Company does not control the transfer of data over the internet and that the Company is not responsible for any delays or delivery failures caused by the internet.

- 4.2. API Keys. Any API Key provided by the Company to you is personal and specific to you. You may not distribute any API Keys provided by the Company to any third party. Such API Keys are the Confidential Information of the Company and are subject to the confidentiality requirements set out herein.
- 4.3. Suspension of Access. The Company shall be entitled to suspend your access to or use of the API Services if:
- (a) the Company reasonably determines that you are using or has used the API Services in a fraudulent or collusive manner or for illegal and/or unlawful or improper purposes;
 - (b) the Company reasonably suspects or believes that your API Keys have been compromised or is being used in breach or violation of this Appendix;
 - (c) the Company reasonably determines that you are using or has used the API Services in an unfair manner, has deliberately cheated or taken unfair advantage of the API Services, its third party providers;
 - (d) the Company reasonably believes that any of your representations and warranties are untrue, misleading or inaccurate;
 - (e) the Company is requested to do so by any applicable law enforcement authority, any regulatory authority or court or if the Company is unable to verify your location, or source of funds as is expressly required by the Company in order to comply with the Company's legal obligations; and
 - (f) you are in breach of this Appendix or the applicable regulations (including regulations applicable in your jurisdiction).
- 4.4. Digital Wallets Created, Connected or Linked via the API Services. You may use the API Services to connect, link or create a Digital Wallet. The Company will not be liable or responsible for the connection, linkage or creation of any Digital Wallet by you, or for your access to or use of such Digital Wallet. You acknowledge and understand that:
- (a) The Company does not have control over your Digital Wallet, and shall not be liable or responsible for any activity or transaction conducted via its Digital Wallet, whether initiated through the API Services or otherwise.
 - (b) All actions taken or purported to be taken via your Digital Wallet (including the initiating of, or signing of, any transactions) will be automatically deemed to have been conducted and authorised by you. The Company, the Platform and the API Services are not able to independently verify the veracity or authenticity of such action or transaction, and shall not be responsible for preventing such action or transaction from occurring.
 - (c) In certain circumstances, such as if you lose your password for your Digital Wallet, you will need to use a private key, seed or recovery phrase to access any digital assets stored in your Digital Wallet (the "**Seed Phrase**"). You are solely responsible for the retention and security of your Seed Phrase. The Seed Phrase is the only way to restore access to the digital assets stored in its Digital Wallet if you lose access to your Digital Wallet. Anyone who knows your Seed Phrase can access, transfer or otherwise deal with or dispose of your digital assets. If you lose your Seed Phrase, you may permanently lose access to your digital assets. You acknowledge that certain methods of securing your Seed Phrase, such as storing it as a digital file anywhere, including on a cloud storage provider, increases the risk that your Seed Phrase will be compromised. You further acknowledge that you will not share with the Company nor any other third party any password or Seed Phrase relating to your Digital Wallet, and that the Company will not be held responsible if you do share any such password or phrase, whether knowingly or unknowingly. For the avoidance of doubt, the Company takes no responsibility whatsoever for any theft or compromise of a Seed Phrase involving intrusion through any means into a cloud provider's data repository.

- (d) You acknowledge and agree that the Company does not store and is not responsible in any way for the security of your Seed Phrase and you agree to hold the Company, its Affiliates, representatives, agents and personnel harmless and that no such party shall be liable in any way in the event you lose your Seed Phrase and cannot access, transfer, use or otherwise deal with or dispose of your digital assets. You bear sole responsibility for any loss of its digital assets due to failure to retain and/or secure its Seed Phrase.
- (e) You hereby irrevocably waive, release and discharge the Company, its Affiliates, and their respective shareholders, members, directors, officers, employees, agents and representatives, from any and all claims, demands, liabilities, damages, losses, costs or expenses arising out of or relating to your use of your Digital Wallet, any loss, theft, compromise or inaccessibility of digital assets, any failed, delayed or misdirected transaction, and any bug, error, interruption, unavailability or failure of the API Services.
- (f) To improve the efficiency of Transaction Requests, the API Services may automatically bridge your Digital Assets across different blockchains and cryptocurrencies to be stored as a reserve. For example, after a fund deposit and prior to a Transaction Request, your funds may be stored as USDC on the Solana blockchain.
- (g) To facilitate and complete the fulfilment of Transaction Requests, you may need to provide the API Services with the permission and authority to access and use your Digital Wallet for the purposes of executing the transaction to fulfil the Transaction Requests on your behalf at any point in time, without further action or interaction from you. In this regard, when you place a Transaction Request, you hereby acknowledge and agree that you are permitting the API Services and the Company, and granting the API Services and the Company authority, to take certain actions on your Digital Wallet on your behalf, including without limitation, signing and executing the relevant transaction to fulfil the Transaction Request.

5. Autonomous Agents and Automated Trading Systems

- 5.1 You acknowledge that you may interface with the API Services through automated systems, algorithmic trading strategies, artificial intelligence agents, bots, or other autonomous or semi-autonomous software (collectively, "**Automated Systems**"). You accept and assume full and sole responsibility and liability for any and all actions, transactions, instructions, and outcomes initiated, executed, or caused by any Automated System through your access to the Platform or API Services, whether or not such actions were intended, anticipated, or authorized by a human operator.
- 5.2 Without limiting the foregoing, the Company shall have no liability whatsoever for any losses, damages, or claims arising from or in connection with: (i) errors, malfunctions, bugs, or unintended behaviour in any Automated System; (ii) trades, withdrawals, or other transactions executed by an Automated System that do not reflect your intentions; (iii) latency, slippage, failed transactions, or execution errors resulting from the interaction between an Automated System and the API Services or any underlying protocol; (iv) any Automated System exceeding intended parameters, risk limits, or trading thresholds; or (v) any third-party exploitation, manipulation, or interference with an Automated System.
- 5.3 The Company reserves the right, in its sole discretion and without prior notice, to: (i) impose rate limits, transaction caps, or other usage restrictions on any Automated System; (ii) throttle, suspend, or terminate API access where any Automated System creates or threatens to create systemic risk, excessive network congestion, or adverse impact on the Platform, the API Services, or other users; or (iii) require you to implement circuit-breaker mechanisms, kill switches, or other safeguards as a condition of continued access.

5.4 Where you deploy, operate or control any Automated System that interfaces with the API Services, you shall implement and maintain reasonable safeguards in respect of such Automated System, including without limitation: (i) human oversight mechanisms proportionate to the risk profile of the Automated System's activities; (ii) configurable transaction limits and loss thresholds; (iii) logging and audit capabilities sufficient to reconstruct the Automated System's decision-making and transaction history; and (iv) the ability to immediately halt the Automated System's operations upon request by the Company.

6. Fees

You may be charged fees for the access to and use of the relevant API Services, including the following:

- (a) platform fees may be charged on transactions made on or through the Platform via the API Services (the **"Usage Fee"**). The Company reserves the right to change or revise the Usage Fee at any time without any notice. It is your responsibility to take note of any changes or revisions to the Usage Fee, and you shall be charged the updated Usage Fee for any further access and use of the relevant API Services conducted by you after the Usage Fee is revised; and
- (b) gas fees or transaction fees charged on the deposit, withdrawal, swaps or other transactions relating to digital assets conducted via the API Services or other charges imposed by third parties when the transactions are routed through their Dapps (**"Gas Fees"**). Where applicable, Gas Fees are paid to the third parties and/or network of computers that operate the relevant blockchain and/or process the transactions and are not paid to the Company. Kindly note that such Gas Fees often fluctuate based on a number of factors, all of which are not under the Company's control, and may therefore vary or change at any time without notice. Although the API Services endeavours to provide an accurate estimate of the final quote (where applicable), any such information only represents an estimation of the applicable fees or charges, which may vary from the Gas Fees actually paid.

Fees applicable to specific API Services may be agreed to in writing between the Parties from time to time, which may include transaction-based, volume-based, recurring, or performance-based fee structures as appropriate to the relevant feature or functionality.

7. Representations and Warranties

A. General

- 7.1 You are responsible for all activities that occur in connection with your access and use of the API Services and the Platform, including but not limited to the proper access and usage of the API Services and the Platform, and your compliance with all applicable laws and regulations.
- 7.2 You are responsible for ensuring that any software, system, interface, agent, bot, content, data, materials or intellectual property that you use in connection with the API Services is owned by you or properly licensed to you, and does not infringe or violate any rights of any third party.
- 7.3 If you use the API Services to operate or make available any application, interface, integration, agent, bot, automated system, vault, strategy or other product or service, you are solely responsible for that product or service, including its features, functionality, operation, security, accuracy, communications, user support, complaints and disputes. The Company is not responsible for any product or service provided by you or any third party.

B. Security and Technological Matters

7.4 You shall use best commercial efforts in accordance with applicable laws and good industry practice to not introduce any Harmful Code into the Platform, the API Services or any Third-Party Software.

7.5 If any Harmful Code is found to have been introduced by you (whether unintentionally or intentionally) into the Platform, the API Services or any Third-Party Software:

- (1) you shall report that fact to the Company as soon as practicable after you become aware of it and provide all information reasonably requested by the Company in relation to the Harmful Code, its manner of introduction and the effect the Harmful Code has had or is likely to have;
- (2) you shall co-operate fully with the Company and all such service providers or third parties designated by the Company in taking the necessary remedial action to eliminate the Harmful Code and shall itself take all reasonable steps to prevent reoccurrence (including implementing appropriate policies and processes to prevent further occurrences); and
- (3) if so directed by the Company, you shall, at your own cost, remove the Harmful Code from the Platform, the API Services or any of the Third-Party Software and remedy any consequences of the introduction, execution or proliferation of the Harmful Code.

7.6 For the purposes of this Appendix, “**Harmful Code**” shall mean any computer instructions, circuitry, or other means whose purpose or intended effect is to (i) disrupt, disable, harm, or otherwise impede in any manner the operation of any component of the Platform, the API Services or any of the Third-Party Software (each a “**System**”) (sometimes referred to as “viruses” or “worms”), (ii) disable or impair in any way the operation of any component of the System, or (iii) permit unauthorized access to any component of a System (sometimes referred to as “traps”, “back doors”, “access codes” or “trap door” devices), and any other harmful, malicious, hidden, or self-replicating procedures, routines or mechanisms whose purpose or intended effect is to cause any component of a System to cease functioning or to damage or corrupt data, storage media, programs, equipment or communications, or otherwise interfere with any part of the Company’s or any third party’s operations.

7.7 If you develop, operate or control any application, interface, integration, agent, bot, automated system or other tool that interacts with the API Services, you must ensure that it:

- (a) complies with applicable laws and regulations, these Platform Terms and this Appendix;
- (b) does not misuse, manipulate, exploit, circumvent, sabotage or abuse the Platform or API Services;
- (c) does not infringe or violate any rights of any third party;
- (d) accurately submits instructions, transactions and other actions in accordance with the relevant user’s instructions, inputs, parameters and authorisations; and
- (e) includes reasonable technological safeguards to prevent unauthorised, unlawful, abusive, unintended or erroneous transactions or interactions.

8. General Disclaimers and Disclosures

The API Services are provided on an “as is”, “under development”, “with all faults” and “as available” basis, and the warranty disclaimers and exclusions set out in the Platform Terms (including the “Service Availability” clause) apply equally to the API Services, to the fullest extent permitted by applicable law.

9. Blockchain Related Disclaimers

- 9.1 The Company and the API Services could be impacted by one or more regulatory inquiries or regulatory action, which could impede or limit your ability to access or use the API Services, or other decentralised protocols or networks or other applicable blockchain. The Company has no control over, and cannot be responsible or liable for, any errors, delays, failures, defects, or other issues caused by such decentralized protocols, networks, or other applicable blockchains. The Company, the API Services are not registered or licensed by any governmental or regulatory authority or agency. No governmental or regulatory authority or agency has reviewed or approved the Company, the API Services provided thereunder.
- 9.2 The following risks are associated with blockchain based technologies in general: the risk of losing private keys, theft resulting from third parties discovering private keys, value fluctuation of digital assets on the secondary market, disruptions to the use of the API Services or any applicable protocol or network caused by network congestion, lack of usability of, or loss of value with respect to, digital assets due to a hard fork or other disruption to any applicable protocol or network, or errors, bugs, or vulnerabilities in the smart contract code associated with a given digital asset or transactions involving digital assets.
- 9.3 Upgrades, forks, or changes to the blockchain or a change in how transactions are confirmed on the blockchain may have unintended, adverse effects. In the event of a change to an underlying blockchain network or other network disruption, resulting in a fork of the existing blockchain into one (or more) additional blockchains, the API Services may or may not halt and may stop functioning. In addition, in the event of a fork, transactions on the network may be disrupted, including transactions involving API Services.

10. Third-Party Software

- 10.1. Notwithstanding any terms to the contrary in this Appendix, you acknowledge and agree that: (a) the API Services contain Third-Party Software; and (b) in addition to the terms of this Appendix, its use is further subject to the terms of licenses applicable to the Third-Party Software. You hereby acknowledge that the Company makes a list of Third-Party Software available to you: (i) with the Documentation, (ii) in the notice file that accompanies the API Services, and/or (iii) in another reasonable manner. Further, you hereby acknowledge that third-party suppliers (such as the third party licensors) may disclaim and make no representation or warranty with respect to such Third-Party Software or any portion thereof, and assume no liability for any claim that may arise with respect to such Third-Party Software or your use or inability to use the same.
- 10.2. NOTWITHSTANDING ANY OF THE TERMS IN THE THIRD-PARTY LICENSES, THIS APPENDIX, THE TERMS OR ANY OTHER SUPPLEMENTAL AGREEMENT YOU MAY HAVE WITH THE COMPANY, THE COMPANY: (I) PROVIDES THIRD-PARTY SOFTWARE TO YOU AS-IS, WITHOUT WARRANTIES OF ANY KIND; (II) DISCLAIMS ANY AND ALL EXPRESS AND IMPLIED WARRANTIES WITH RESPECT TO THIRD-PARTY SOFTWARE, INCLUDING BUT NOT LIMITED TO IMPLIED WARRANTIES OF TITLE, NON-INFRINGEMENT, MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE; (III) IS NOT LIABLE TO YOU AND WILL NOT DEFEND, INDEMNIFY, OR HOLD YOU HARMLESS FOR ANY CLAIMS ARISING FROM OR RELATED TO THIRD-PARTY SOFTWARE; AND (IV) WITH RESPECT TO THE THIRD-PARTY SOFTWARE, THE COMPANY IS NOT LIABLE TO YOU FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL, EXEMPLARY, PUNITIVE OR CONSEQUENTIAL DAMAGES INCLUDING, BUT NOT LIMITED TO, DAMAGES RELATED TO LOST REVENUE, LOST PROFITS, LOSS OF INCOME, LOSS OF BUSINESS ADVANTAGE OR DAMAGE TO, OR UNAVAILABILITY, LOSS OR CORRUPTION OF DATA.

11. Miscellaneous

Export Controls and Sanctions Compliance. The export control, trade sanctions, anti-money laundering, counter-terrorist financing and restricted-jurisdiction obligations and representations set

out in the Platform Terms apply equally to your access to and use of the API Services. Without limiting those obligations, the Company may suspend, restrict or terminate your access to the Platform or the API Services immediately if it reasonably believes that your access or use may breach those obligations or create sanctions, export control, legal, regulatory, compliance or reputational risk.
